July 8, 2008

Peter M. Douglas Executive Director California Coastal Commission 45 Fremont Street, Suite 2000 San Francisco, CA 94105-2219

SUBJECT: Reconsideration of the Coastal Commission Review of the Carlsbad Energy Center Project (07-AFC-06)

Dear Mr. Douglas:

The City of Carlsbad would like to request that you reconsider Coastal staff's involvement in the Application for Certification (AFC) process regarding the proposed Carlsbad Energy Center Project (CECP), which is currently before the California Energy Commission (07-AFC-06).

As you may recall, in a letter dated October 16, 2007, your office submitted a letter to Mr. Blevins, Executive Director of the California Energy Commission (CEC), notifying him that the Coastal Commission (Coastal) was not going to participate in several proposed power plant Applications for Certification. The proposed Carlsbad Energy Center Project (referred to as the Encina Replacement Project in the October 16th letter) was one of the projects identified that Coastal staff would not be reviewing.

While the City understands and appreciates the reasons you outlined which necessitated the need to suspend Coastal staff's involvement in the AFC proceedings, the City now believes that the CECP's proposed changes, as well as its environmental impacts, warrant Coastal's attention and review. Specifically, the City believes that a long term visual impact and a significant land use conflict will be created as a result of the CECP. If not avoided, this visual impact will clearly result in the diminishment of a valuable coastal resource in San Diego's North County.

Furthermore, in a letter dated June 5, 2008, NRG has notified the CEC that the height of the two smokestacks will be increased from 100 ft. to 139 ft. Included in this letter was NRG's intention of continued use of the existing Encina ocean intake/outfall infrastructure for water and industrial wastewater discharge.

July 8, 2008 Executive Director, California Coastal Commission Page Two

As you are aware, the California Coastal Act Section 30143 (d) calls for Coastal review of these types of projects. Recognizing the increasing challenges that the CECP presents and its impact on such a valuable coastal resource, the City of Carlsbad requests that you reconsider your earlier position and direct your staff to participate in the review of the CECP AFC.

Sincerely,

Joe Garuba

Municipal Projects Manager
